

Exam stress

It's exam time again, but how do you manage? Leave your studying until the last minute and stop everything you enjoy and study all the time. Is it the right thing to do? Or is there another strategy to follow? All you need is to organise your time.

First of all, you need to begin studying early. If you just revise the day before, you will definitely get stressed! Just prepare a study plan and stick to it. In this way, you will make sure you complete everything on time. You will also be much calmer and a lot more relaxed.

Secondly, you have to eat well and get enough sleep. If you have plenty of energy and your mind is rested, you will be able to think more clearly. It is also a good idea to go for a walk, for example, or have a quick snack with friends. Don't forget you need to find time to relax and have fun. This can help to clear the mind.

All in all, what you need is to plan your time carefully. If you do this, exam stress will not be a problem.
